DETAILED ACTION

Response to Amendment

1. Applicant's proposed amendment after final filed 3/30/2005 places the application in condition for allowance and has been entered. To clarify the record at this point in the prosecution, claims 1-3, 5, 6, 9, 12-14, 17-22, 24, 25, 28, and 29 are pending.

Allowable Subject Matter

2. Claims 1-3, 5, 6, 9, 12-14, 17-22, 24, 25, 28, and 29 are allowed.

3. The following is an examiner's statement of reasons for allowance: Applicant amended the claims to recite the allowable subject matter indicated in prior Office actions. The reasons for allowance of the claims remain the same as set-forth in prior Office actions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The examiner's updated search of the prior art yielded US 6,461,795 B1 (filed 4/25/2000), which teaches a method for manufacturing a lithographic printing plate in which a photosensitive coating solution is applied to a support, dried to the touch by a first heating means, and fully hardened by a second, non-contact heating means (3:48-4:65). This reference neither teaches nor suggests changing a condition of the second heating means based on any of the detected parameters recited in the independent claims.
